

The Danish Network for Engineering Education (IUPN)

invites you to the conference

Exploring Teaching for Active Learning in Engineering Education (ETALEE)

25. – 26. May 2023 – VIA University College, Horsens, Denmark

Do you want to update your teaching?

Do you want your students to become active learners?

Do you want to explore the future of Engineering Education?

If you can answer 'Yes' to any of these questions this conference may be of interest to you.

The conference will be a mixture of

- Active Keynotes for inspiration
- Workshops
- Practical Hands-on sessions
- Explore sessions
- Active Poster sessions

Share your experience with colleagues by contributing examples from your own teaching practice.

Join us and get inspiration to make your teaching more motivating, fun and engaging for your students and yourself.

Visit the conference website <http://www.etalee.dk> for further information

Join us in Horsens, May 2023
